

WHAT KIND OF BEDFORD DO YOU WANT IN THE COMING YEARS?

What's Important to You?

- More business growth to increase municipal revenues and help with the residential tax burden?
- More concentrated and attractive commercial development?
- Preservation of the character of Bedford's central areas and historic neighborhoods?
- More preservation of Bedford's remaining natural resources and open space?
- Maintenance of first rate municipal services and facilities?
- Increased pedestrian/bike/transit options?
- Continued housing diversity to offer an array of choices to residents of all ages?
- Others?
- All of the above?
